Subject: FW: Formaldehyde main document for TD-13
Attachments: Formaldehyde_MainText_2021InteragencyReviewForTechEdit(ICF-11-22-21).docx

I paged through this quickly (it is still slow) and I didn't see anything. You should accept track changes and use this as your master for the Step three now.

Let me know when you are ready with this file and with the appendices – we need to make sure the EPA number is on the cover, that the date is correct, and that there are versions with both HERO and HEROnet links (we will do all of this) and then make the PDFs to send out to IA reviewers and to 508/Maureen for eventual posting.

Let me know if you see any problems.
Vicki

Subject: Formaldehyde main document for TD-13

Sorry, Vicki, luckily I just found this in my outbox when I was doing some late night mail checking. I tried to send this around 4:00 I think.

Now I realize it's too big. So I'll send the ENL in a separate email.

Hi Vicki,
Here is the main formaldehyde document and ENL. The document can still be pretty unresponsive – even with extraneous styles cleared, auto-save turned off, and checked out. But, hopefully we can keep making gradual improvements until we find the magic bullet.

Let us know if you see anything that needs correcting.

Greg
